

ShopOnTV

For those of you selling on the teevee.

You will need to export the orders, then convert them to a Helm valid format, then finally upload to Helm.

<https://wms.shopontv.co.uk/downloadorder/downloadorders>

https://onlinefulfilmentcentre.myhelm.app/imports_exports/orders

You can run this script to convert the Orders from **ShopOn to Helm**

Python Code for Conversion

Run this from a blank directory that contains the export file (named order_export.csv).

Ensure your fulfilment client ID is the correct one (we will provide this for you upon request).

(TODO FUTURE) Or upload the CSV to this webpage, which will do this for you, and return the new CSV

Then at the end of each day, you'll need to import the orders.

To do this, first export the orders from Helm with the correct date-range (Today), and the Status (**Despatched**)

https://onlinefulfilmentsandbox.myhelm.app/imports_exports/orders

<https://wms.shopontv.co.uk/downloadorder/downloadorders>

Uploaded Shipped (CSV)

AS ABOVE, SCRIPT/URL THAT DOES THE CONVERSION

You can run this script to convert the Orders from **Helm to ShopOn**

https://files.ofc.anetwork.uk/index.php?p=scripts%2Fhelm_to_shoptv
